HEADACHES

Types, Triggers & Treatment

appreciate how David keeps his audience engaged with his "easy-to-learn and user-friendly style," which has become his trademark.

Surveys indicate that 55% of headache sufferers are frustrated with their ineffective medical treatment. Many headaches, often attributed to being migraines are in fact muscular in origin or triggered by commonly overlooked, and easily treatable influences. A solid understanding of the muscular components of headaches will give you the ability to promote your skills to this lucrative market. You will leave this seminar with a new perspective on treating headaches and be able to use your new skills immediately.

This seminar also address: **Headaches, Whiplash, Forward Head Posture, Orthopedic Assessments, Temporomandibular Pain, and Scalp and Head Pain**

Join David for a fun, energetic and information-packed seminar. David teaches this seminar with passion after suffering from debilitating headaches for over 20 years and is today pain-free. He will demonstrate various techniques for the treatment of headaches, neck, face and scalp pain. The techniques you will learn can be used Monday morning in your practice. Visual, auditory and kinesthetic learners

David Kent, LMT, NCTMB, is a writer, educator and international lecturer specializing in dissection, medical massage and practice building seminars.

David founder and president of Kent Health Systems, is a product innovator and has developed the Postural Analysis Grid Chart, Trigger Point and Muscle Movement Charts, Personalized Essential Office Forms and DVD Programs. His clinic Muscular Pain Relief Center employs numerous therapists and receives referrals from area hospitals and various medical specialists. David's cutting-edge images and software add excitement to his dynamic teaching style. Learn more call: **888.574.5600** or visit **www.KentHealth.com**
